

SYSTOLETHOR

WIRELESS BLOOD PRESSURE MONITOR

For those with blood pressure issues this is a way to conveniently check the blood pressure without inflating the cuff yourself and get a clear digital display on LCD. Data transmission over Bluetooth for Telemedicine applications.

OVERVIEW

- Bluetooth transmission to send measurements to another Bluetooth device.
- PC software included for viewing statistical graph.
- Fully automatic inflation and deflation.
- Measures systolic / diastolic blood pressure and pulse rate from the Wrist.
- Indication of average blood pressure for all stored records.
- Large Digital Display: Easy to read blood pressure and pulse rates.
- Continuing display all the measurements for easy scanning.
- 80 measurements (or 40 measurements for 2 groups) with date/time for easy recording and reviewing.
- Small and portable for easy transport.
- Easy and simple operation.
- Record averaging.
- Quality Approvals: CE

SPECIFICATIONS:

- Pressure units: mmHg or kPa
- Auto Power-Off: (1 Minutes)
- Method of measurement: Oscillometric
- Power supply: 2 "AAA" (1.5V) batteries
- Dimensions: 70 (L) x 72 (W) x 23 (H) mm
- Wrist cuff suitable for wrist sizes: 135-195mm
